I sensori ottici di Dico Liner scrutano la superficie per dire addio a ogni effetto cuscino o trapezio!

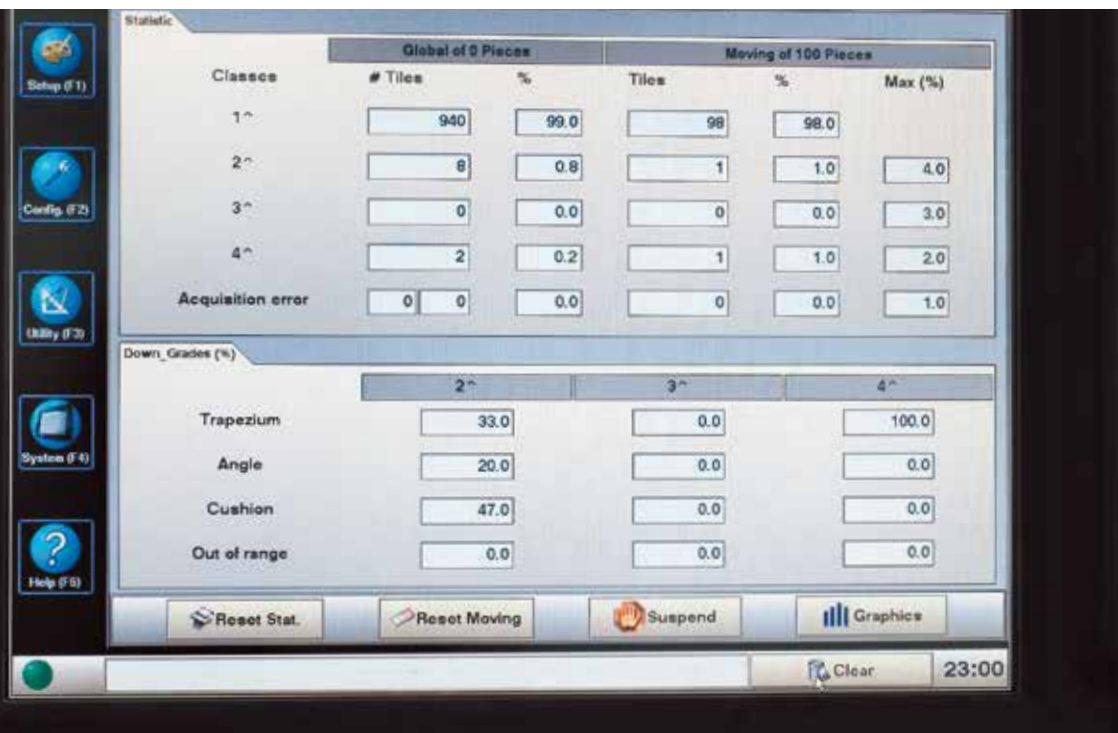

- Precisione al decimo di millimetro,
- cambio di formato automatico,
- rivelatore di luce con CCD lineare ad alta risoluzione.

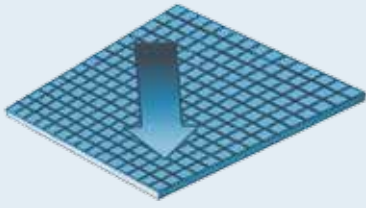

Formato minimo di 100 x100 mm ed uno massimo di 1200 x1200 mm

Dico Liner optical sensors analyse the surfaces to say goodbye to any cushion or trapezium effects!

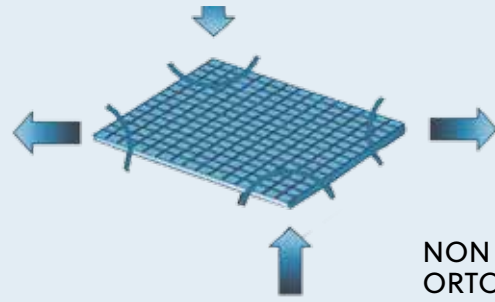

- Precision to a tenth of a millimetre,
- automatic format change,
- light detector with high resolution linear CCD.

Minimum format 100 x100 mm maximum 1200 x1200 mm
